

MEHUL DINESH JAIN

Software Engineer · Ruby · Python · JavaScript

🌐 website • ✉ mehuldj999@gmail.com • 📄 mehuldjain • 🎧 mehuldineshjain

SUMMARY

A Full-stack with a passion for crafting software that feels effortless to use. I've worked across startups and scale-ups, shipping products that serve thousands of users daily. Outside of code, I mentor junior developers, volunteer for rare diseases and disability rights. I believe great software is equal parts craft and empathy.

TECHNICAL SKILLS

Languages: Ruby (advanced), JavaScript (advanced), Python (intermediate), TypeScript, SQL, Bash, HTML/CSS

Frameworks & Libraries: Ruby on Rails, React, Django, FastAPI, Node.js, jQuery, Bootstrap

Databases & Infrastructure: PostgreSQL, Redis, MongoDB, Elasticsearch, Docker, AWS

APIs & Architecture: REST, GraphQL, WebSockets, Microservices

Testing & DevOps Tools: RSpec, Capybara, Jest, Git, GitHub, Jenkins, Postman, Sentry, Datadog

Development Practices: Agile, TDD, Web Accessibility, Design Patterns, Performance Optimization

Languages (spoken): English (C1), German (A2, actively improving)

PROFESSIONAL EXPERIENCE

Arcadia (Urjanet)

Remote

Software Engineer II

Apr 2023 – Mar 2024

- Reduced account attrition by managing scraper bot 'move request' feature, saving up to USD 250K
- Led integration of third-party reward programs with Optimus Rewards, increasing customer acquisition
- Implemented DocuSign integration and enhanced waitlist experience program, streamlining user workflows
- Consolidated APIs and created Postman documentation, boosting team productivity by 30%
- Mentored two interns, both successfully converted into full-time engineers
- Recipient of three awards for best project and outstanding performance
- **Tech stack:** Ruby on Rails, TypeScript, React, GraphQL, AWS, PostgreSQL

Aknamed Pvt. Ltd.

Bengaluru, India

Software Engineer I

Sep 2021 – Mar 2023

- Owned Rate Contract Module: automated selling price logic
- Reduced pricing errors by 99.9% and increased annual revenue by 1% through automation features
- Improved user experience with price indicators and alerts
- Implemented multi-tenant internal stock transfer system - transfers across branches and business units
- Enhanced operational efficiency by 30% with bulk upload functionality, and automated report generation
- Optimized Elasticsearch performance in multiple modules, improving search speed by 20%
- Automated tasks with Ruby and Python scripts for bulk invoice downloads, data corrections and more
- **Tech stack:** Ruby on Rails, JavaScript, jQuery, AWS, PostgreSQL, Elasticsearch, Bootstrap

Cerner (Oracle Cerner)

Bengaluru, India

Software Engineer I

Aug 2020 – Sep 2021

- Automated AWS Cloud-Formation command generation and improved developer efficiency by 15%
- Developed and maintained AWS-EMR pipelines for population health algorithms using Clojure
- **Tech stack:** Ruby on Rails, Clojure, AWS, CloudFormation

Cerner (Oracle Cerner)

Bengaluru, India

Software Engineering Intern

Feb 2020 – Jul 2020

- Developed a React + Rails internal data fetching tool using GitHub API
- Achieved 100% data consistency and reduced manual effort
- **Tech stack:** Ruby on Rails, React, GitHub API

PROJECTS

Physiobuddy Project for mobile users to perform physiotherapy remotely.	Mar 2025 (active)
Attrition Predictor AI project to identify attrition probability of users (Global Innovation Award) in Arcadia Hackathon 2023	Jan 2024
AI Annualized Usage AI project to predict annual usage estimate of the user received a Technical Innovation Award in Arcadia Hackathon	Jan 2024
Donor Management System Donor receipt fixes for the Donor Management System (Django/Python) for the Haemophilia Federation of India	Jan 2023

CERTIFICATIONS

Meta Full Stack Developer: Front-End & Back-End from Scratch On Coursera by Meta HTML/CSS/JS/React/Django/API — Certificate Link.	2025
Claude Code 101 On Anthropic Academy AI-assisted workflows, agentic loop, context window and tools — Certificate Link.	2026

AWARDS AND RECOGNITIONS

Technical Innovation Award: Project AI Annual Usage received during hackathon	
Global Innovation Award: Project Attrition Predictor received during hackathon	
Batman Award: Best performer of the quarter received in December 2023	
NHM Recognition: Digitalizing Hemophilia Treatment Centers map for National Health Mission magazine	

VOLUNTEERING EXPERIENCE

Rare Disease International , Youth Leadership Program, Geneva Advocating for the rights of rare diseases for treatment around the world	May 2025
Interessengemeinschaft Hämophiler eV (IGH) , Member, Berlin Represented hemophilia at World Health Summit 2025	Oct 2024
Hemophilia Federation India , Youth Leader – South Zone Representative Led camps for advocacy, training, and fund raising	Feb 2020

EDUCATION

University of Europe for Applied Sciences Master of Science in Software Engineering	Potsdam, Germany Sep 2024 – Sep 2025
Jain University Master of Science in Information Technology	Bengaluru, India Jul 2018 – Jul 2020
St. Joseph's College Bachelor of Computer Applications	Bengaluru, India Jun 2015 – Jun 2018
